

Round Bird
is not like
other birds.
He has a
big round
body with
little wings.

He can not
fly but he
wants to
play with
the other
birds more
than
anything.

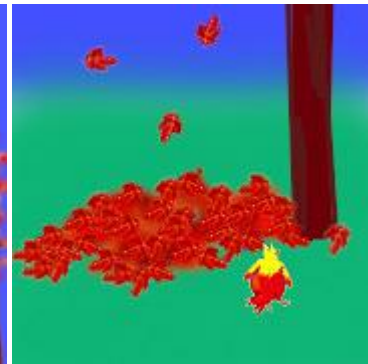

Every day
and in many
ways, he
tries to
fly.
Then he
tries
again.

But
nothing
worked.

Then he
thought
it might
be better
to use the
tree.

Round
Bird is
determined
to fly.
